- 8 baffles per module
- Smart installation system
- Adjustable in height

Baffles	PET Felt
EasyGrid	Steel (Black)
Size	1200 x 1800 x 100 mm
Total weight	14 kg

ACOUSTIC DOUBLE BAFFLES FLAT

Flat is designed for spaces with low ceiling. To achieve maximum acoustic effect, the baffles are contiguous, allowing to capture the sounds directly at the source. Apply the baffles above the conference tables or loud equipment to prevent the noises from travelling freely through the space.

PET FELT

PET Felt is made from recycled plastic bottles. A fiber is made from the finely ground bottles and this creates a soft, but sturdy felt. It lasts a long time, is easy to maintain and dampens noise. PET Felt can also be recycled. The PET Felt is available in 28 colours and fits into any interior.

COLOURS ⓘ

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the tiles come from the same batch.
