Material	PET Felt
Size	1200 x 600 x 9 mm
Weight per set	2.34 kg

ACOUSTIC PET FELT PANELS BEEHIVE

Beehive panels offer a playful alternative to bare walls. Hexagon cut-outs compose an asymmetric motive, resembling the honeycomb. The Beehive pattern is tileable and extendable to any size. Cover an entire wall with it or use a single strip as an accent in a room.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ⓘ

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch. Keep in mind that the panels have a nap direction on both sides. To avoid alterations in appearance, we advise to check the nap direction and mount the panels on the same side.
