- Great acoustic performance
- Sold per set of 4 or as a full panel

Material	PET Felt
Size	1200 x 600 x 9 mm
Weight per set	2.62 kg

ACOUSTIC PET FELT PANELS FISHBONE

The herringbone motive is timeless, but it still gets something extra with the innovative PET Felt material. Made using v-cut technique, the Fishbone offers a playful 3D pattern that can be laid endlessly. The panels have a handy size and are easy to mount on any surface.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ⚠

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch. Keep in mind that the panels have a nap direction on both sides. To avoid alterations in appearance, we advise to check the nap direction and mount the panels on the same side.
