aw <small>(100-5000Hz)</small>	0.25	0.60	1.00	0.80	0.95
Acoustic Class	D	C	A	B	A

PET FELT PANELS

Melange is a PET Felt collection with 18 unique colours, available exclusively at ReFelt. Each colour has a special fibre blend, contributing to their aesthetic value. Made from recycled plastic bottles, the panels have a distinctive warm appearance and soft texture. They are 30% thicker than the standard PET Felt panels for an improved sound-absorbing effect. Bring any design to life by mixing colours and designing custom patterns.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ⓘ

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch. Keep in mind that the panels have a nap direction on both sides. To avoid alterations in appearance, we advise to check the nap direction and mount the panels on the same side.
