STREETS PET FELT HANGING DIVIDERS

Inspired by one of our favourite wall patterns, Streets dividers offer a playful and flexible solution for open-plan interiors. These ceiling-suspended partitions are designed to divide various spaces without making permanent alterations to the building structure. Thanks to their lightweight design, through-cut pattern and almost invisible steel fixture, the dividers won't compromise the open character of your office, store or restaurant.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ①

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch.
