Weight per set	5.3 kg

POINTS PET FELT HANGING DIVIDERS

Bring acoustics to the next level with Points room dividers. In addition to dampening unwanted sounds, these ceiling-suspended walls create the feeling of privacy by screening off visual distractions. Their subtle gradient pattern with thru-cut elements will add an elegant touch to any interior. Depending on the needs of your space, the dividers can be combined into various configurations to achieve a desired level of privacy.

PET FELT

The dividers are made from PET Felt, a sustainable and durable material produced from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. In addition to the sound-dampening effect and visual appeal, the dividers also offer extensive impact resistance. They will serve a long time and can be easily recycled afterwards.

COLOURS

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch.
