PRODUCT OVERVIEW

- Flexible solution for curved surfaces
- Bendable with a min. radius of 500 mm
- Easy to mount and process
- Made from fire-retardant PET
- Sound-dampening effect

Material	FR PET Felt
Size	2880 x 1130 mm
Thickness	9 mm
Weight	6.2 kg
Reaction to fire classification	B-s2, d0

FLEXIPANELS

FlexiPanels provide a versatile acoustic solution for curved surfaces, effortlessly adapting to any shape for seamless appearance. Their flexible structure ensures quick and efficient installation, while a wide range of colours offers limitless design possibilities. Made from recycled PET Felt, FlexiPanels also improve the overall acoustic comfort of a space.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ⓘ

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch.
