PET Felt brings new life to plastic bottles. It is a versatile, durable material with soft texture and sound-dampening properties. Pleasing to the eyes, ears and environment.

PRODUCT OVERVIEW

- Unique 3D wall effect
- Improves acoustic comfort
- Adjustable width per element
- Floor-to-ceiling application
- Made from fire-retardant PET

Material	FR PET Felt
Size	2880 x 750 x 63 mm
Thickness	9 mm
Weight	10.4 kg
Reaction to fire classification	B-s2, d0

FLUX ACOUSTIC WALL PANEL

The Flux Acoustic Wall Panel combines bold, geometric design with effective sound control. Its seamless 3D surface enhances both acoustics and aesthetics, while the integrated fire-retardant PET felt—made from recycled plastic—ensures long-term performance. Flux turns any wall into a durable and dynamic architectural feature.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS !

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the panels come from the same batch.
